Subject: PH RDGC Update

Hi Mike and Eron,

An update to EPA's Remedial Design Guidelines and Considerations (RDGC) is provided at the link below. Major revisions included in this update are as follows:

- Clarifying edits were made to RDGC main text based on a thorough review by EPA and the TCT
- Discussion of data summation rules was removed from Section 2.4 and replaced with a reference to EPA's Program Data Management Plan which will be the guiding document for analytical data summation rules
- Section 5.3.3 Navigation Channel Requirements was updated based on USACE input
- Three new topics were added to Appendix B on habitat mitigation, data replacement, and contaminant of concern requirements
- Appendix C Monitoring Requirements and Remedy Implementation Performance Standards was added
- Appendix F Remedial Design Frequent Comments was added
